PROFESSIONAL SUMMARY

A passionate frontend-focused full-stack developer with 2years and 2 months of experience in developing and maintaining scalable web applications. Skilled in leveraging React.js for frontend development and Node.js with Express.js for backend services. Demonstrated expertise in translating Adobe XD/Figma designs into reusable UI components, optimizing performance, and collaborating effectively within cross-functional teams to deliver high-quality solutions.

EMPLOYMENT HISTORY

Engineer (*Full Stack Developer*) *Dec 2025 - Current*
L&T Technology Services | Hyderabad, India

- Converted Adobe XD designs into reusable UI components using React.js and Material UI, ensuring consistency and scalability across the application
- Designed and implemented backend services using Node.js and Express.js to handle complex business logic, improving server-side performance by 25%.
- Collaborated with teams of 3+ developers to launch 3 new features within strict deadlines, resolving 90% of reported technical issues.
- Provided actionable feedback to the team lead, contributing to process improvements that reduced development cycles by 15% and improved overall team efficiency.

Graduate Engineer Trainee *Sep 2024 - Dec 2025*
L&T Technology Services | Hyderabad,India

- Gained hands-on experience in JavaScript, Node.js, and React.js, reducing development time for new features by 20% through code optimization.
- Developed a Reporting Web Application from scratch, integrating backend logic with React.js frontend.
- Built and integrated 5+ RESTful APIs for user management, streamlining authentication, authorization, and user role functionalities.
- Implemented role-based access control (RBAC) to secure sensitive user data, ensuring system integrity.

SKILLS

Frontend: React.js, Material UI, JavaScript (ES6+), CSS3, HTML5
Backend: Python, Node.js, REST APIs
Database: PostgreSQL

PROJECTS

Visualization Dashboard

Company: LTTS

- Developed dynamic dashboards using React.js for real-time data visualization and monitoring.
- Implemented responsive UI components to enhance user interaction and usability.
- Integrated APIs to fetch and display live data efficiently.

QR Builder Application

Company: LTTS

- Built front-end features using React.js and contributed to backend logic using Node.js.
- Integrated AI/LLM capabilities for intelligent QR code generation and customization.
- Improved performance and usability through optimized UI components.

AI Advisory Application

Company: LTTS

- Developed front-end components using React.js for AI-driven advisory features.
- Integrated Generative AI models to provide automated recommendations.
- Collaborated with backend services to ensure smooth data processing and response handling.

EDUCATION

B.Tech - *Computer Science* 2020 – 2024
Veltech University| Chennai.

- **Crime Rate Prediction using Decision Tree Algorithm,** Developed a crime rate prediction system using Decision Tree algorithm by analyzing historical crime data - Major Project - {Domain: IoT}.
